

# An(Other) side of Toowoomba

## Exploring through an Indigenous pedagogy

### The aim

The aim of this journey is to show you some alternative narratives of 'place' and 'history' that (though perhaps hidden) make up the rich Indigenous cultural landscape in and about Toowoomba. We hope the day will provide you with a chance to 'try on different lenses' as part of a journey of learning. This will be a half day event.

### Times and venue:

9.30 am – 2.00 pm; we will begin our journey at USQ and explore a couple of other sites via bus.

### Enhancing Cultural Competency

This event is part of the PD associated with enhancing Cultural Competency at the University of Southern Queensland. We look forward to your attendance and to enjoying a day of learning with you,

Megan

An(Other) side of Toowoomba  
Exploring through an Indigenous pedagogy

### Framework - 8 ways Indigenous pedagogy

We will frame this exploration of Toowoomba through the 'lenses' of the 8 ways indigenous pedagogy framework. By taking this approach, we hope to 'unpack' Toowoomba as a place with a particular history using a culturally informed Indigenous methodology.

We will use the elements of Story Sharing, Deconstruct Resonstruct and Land Links from the 8 ways framework to provide a lens for this event
